

Summery of Conclusions from Research leading to my Design Specification

Conclusions and decisions from Research

Look back through your research. You will have drawn conclusions and made important decision that will help to ensure your product is successful. On each of the previous sheet, these will have been summarized.

Now bring these together and write these up into paragraph format here. This is needed to prove to the examiner that your research is relevant and useful. It should then help you to write your

Design Specification

Repeat your Design Brief: I am going to

My Design should meet the following specification requirements:

Specification Point	Description	Justification / Reason
Timescale	The manufacture in the school workshops must be completed in no more than 25 hours.	This is the time allowed for the controlled assessment task in Technology
Function	My product must	
Performance		
Target Market		
Aesthetics		
Ergonomics		
Materials	<i>(Properties such as: Weather proof, ea</i>	
Quantity of Manufacture	<i>Bespoke, Batch, Mass, CNC – commercial product viability</i>	
Quality of manufacture	<i>Accuracy, QA, QC</i>	
Reliability		
Cost		
Weight		
Sustainability
